During efforts to locate Barr, member of the Julius Rosenberg espionage network who was last seen in Paris, France in June, 1950, we learned that Milton A. Lipton, aka Milton Lifschitz, Electronic Engineer, Coles Signal Laboratory, Department of Army, Ft. Monmouth, N. J., was acquainted with subject while both employed by Army Signal Corps. Lipton also roomed in 1942 with Alfred Sarant, another member of Rosenberg network. Lipton was subject of Security Of Government Employees investigation (140-3158) forwarded to Civil Service Commission by Bulet 4-8-54. Interview with Lipton is desired as soon as possible without compromising adjudication of SGE case.

## RECOMMENDATION:

Liaison should inquire of Army re disposition of SGE case, and if case not yet adjudicated, should arrange for Bureau to be notified promptly upon completion.

Rerep SA Frederick C. Bauckham, dated 2/2/54 at  
New York.

During a review of Bufiles in connection with a request to interview Milton Lipton, it has come to the Bureau's attention that pages 5 and 6 of rerep set forth a documentation of Milton Lipton, a former associate of the subject. A review of this documentation reflects that it is a documentation of a different Milton Lipton than the one who was an associate of Barr. The documentation set out is for the subject of the file captioned "Milton Lipton, Aka Milton Lifshitz, Marcus Lifschitz, Business Economist-Appointee, Bureau of Labor Statistics, Office of Program Operations, Region II, North Atlantic Regional Office, Section of Construction Statistics, Department of Labor, New York, New York - Loyalty of Government Employees," New York file 121-8344. The Milton Lipton who associated with the subject was employed at Fort Monmouth beginning in 1940, whereas the Milton Lipton who is the subject of New York case file 121-8344 is a business economist who, according to his file, was never employed at Fort Monmouth, New Jersey. The above information was available in the files of the New York office at the time rerep was prepared.

You are instructed to submit SA Bauckham's explanation for this error and to submit your recommendation for administrative action to be taken by the Bureau with regard to the same. Corrected pages should be submitted correcting this error.

By attached letter dated 4/7/55, Newark requested authority to interview Milton Lipton, engineer, Coles Signal Laboratory, Ft. Monmouth, New Jersey. During investigation previously conducted, it was learned that Lipton allegedly was acquainted with the subject while both were employed by the Army Signal Corps in the early 1940's. In 1942 Lipton roomed with Alfred Sarant, member of the Rosenberg espionage network. Lipton attended Cooper Union Institute of Technology, New York City, from 1934 to 1939, and began employment at Coles Signal Laboratory as a Junior Electronic Engineer 7/1/40. He has been employed continuously at that installation and is now an Electronic Engineer. Lipton was the subject of an SGE investigation which was closed favorably by the Secretary of the Army and his letter of clearance was dated 2/25/55. (140-3158) No derogatory information other than the above was developed. It is felt Lipton should be interviewed as he is in a position to furnish information about Barr and Sarant and their activities and acquaintances. Investigation has reflected both Barr and Sarant were involved in the Julius Rosenberg espionage network, both have fled the U. S. and their present location is not known. *21*

In the course of conducting a review of Bufiles on Milton Lipton in connection with the request for this interview, it was determined the report of SA Frederick C. Bauckham, dated 2/2/54 at New York, contained on pages 5 and 6 documentation of Lipton. It was determined this documentation refers to another man by the name of Milton Lipton who was the subject of an LGE case (121-20454). This Lipton is an economist and his file reflects he had never worked at Ft. Monmouth, which information was available to the NY office when the report was prepared.

New York is being requested by attached letter to submit an explanation of the reporting agent for this error. No explanation is asked of the field supervisor as in the performance of supervisory duties it would not be possible to detect this error unless a review was conducted of the LGE case on Milton Lipton. This report was disseminated to RAB, CIA and OSI.

ACTION: There is attached for your approval a letter to NY, with copies for Newark, which authorizes an interview of Milton Lipton and requests an explanation from SA Bauckham for the erroneous documentation set forth in his report dated 2/2/54.

2) There is also attached for your approval a letter to Records Administration Branch and a letter to CIA, with copy to OSI, advising that the information set forth in Bauckham's report has been ascertained to pertain to another person named Milton Lipton.

Rebulet 4/20/55 requesting explanation and recommendation for administrative action concerning an error in the report of SA Frederick C. Bauckham, NY, 2/2/54.

**ERROR NOTED**

Referenced Bulet reflects that pages 5 and 6 of referenced report set forth a documentation of MILTON LIPTON, a former associate of subject. This documentation is in fact a documentation of a different MILTON LIPTON than the one who was an associate of the subject JOEL BARR.

### EXPLANATION

SA Frederick C. Bauckham, in his memorandum, 4/27/55, attached hereto, explains that the documentation on MILTON LIPTON, as obtained from a Loyalty investigation, NY file 121-8344, pertained to a different MILTON LIPTON than the one who was the associate of JOEL BARR. It was included in the report in the belief that the MILTON LIPTON documented was possibly identical with BARR's associate, ~~MILTON LIPTON~~. SA Bauckham admits that he did not qualify the documentation to show that it "might possibly" pertain to a different individual than the associate of JOEL BARR.

## RECOMMENDATIONS AND CONCLUSIONS

The referenced report of SA Bauckham, dated 2/2/54, was approved for submission to the Bureau by Relief Supervisor FRANCIS W. ZANGLE. Inasmuch as it was impossible for SA Zangle to know that the documentation of the MILTON LIP- TON appearing in the report was incorrect, no memorandum of explanation has been requested of Supervisor Zangle. To hold otherwise would be to require a Field Supervisor to review all references in files other than the pertinent case file, which an Agent is required to review in preparing a report for submission to the Bureau. Therefore, NYO recommends no administrative action insofar as SA Zangle is concerned. With reference to SA Bauckham, it is recommended that the Bureau address a letter of censure to him for documenting the wrong individual in his report of 2/2/54. It is noted SA Bauckham concedes that he documented the wrong MILTON LIPTON.

It is felt that SA Bauckham should have made absolutely sure that the documentation he was using pertained to the person he was documenting and it is for this reason it is recommended that he be censured.

ADDENDUM

JPL:jaa:ees

May 10, 1955

I A documentation of Milton Lipton, an associate of the subject, was set out in the report of SA Frederick C. Bauckham made at New York 2-2-54, however, the documentation pertained to a different person with the same name.

SA Bauckham in the attached explanation admits the documentation pertained to the wrong Milton Lipton and states it was included in the belief that he was possibly identical with the subject's associate. SA Bauckham admits failing to include such a qualification when he set forth his documentation in the report.

The SAC, New York advises in attached letter no explanation was asked of Relief Supervisor Francis W. Zangle who approved the report since he had no way of knowing the documentation was in error and to hold otherwise would require a field supervisor to review all references on Lipton contained in files other than the case files. The SAC, New York, recommends no action in so far as SA Zangle is concerned.

The SAC, New York recommends a letter of censure be directed to SA Bauckham for documenting the wrong person, since he should have made absolutely sure the documentation set forth pertained to the person he was attempting to document.

The Domestic Intelligence Division concurs with the recommendation of the SAC, New York.

between the subject and ALFRED SARANT with whom LIPTON stated he lived for a short period of time in 1941.

Newark T-1, a person who has supplied reliable information in the past and a person in whom JULIUS ROSENBERG confided, stated that ALFRED SARANT was identified to him by JULIUS ROSENBERG as being a member of ROSENBERG's group. Newark T-1 had interpreted that statement as meaning that ALFRED SARANT was a Soviet agent.

It should be noted that JULIUS ROSENBERG was electrocuted at Sing Sing Prison, Ossining, New York, in June, 1953 after having been found guilty in United States Federal District Court, Southern District of New York, on charges of conspiracy to commit espionage against the United States.

LIPTON went on to say that he had only one contact with the subject outside of Fort Monmouth. He stated that he does not recall the exact date but that it was sometime in the Fall of 1941. LIPTON stated that at this period he had been sent to Washington, D. C. by the Signal Corps on a special assignment. While in Washington, D. C., LIPTON had occasion to recommend a particular piece of work to Fort Monmouth for their approval. He stated that it apparently fell to JOEL BARR to approve or disapprove his, LIPTON's, recommendation concerning this piece of work. Because of this, BARR called LIPTON in Washington, D. C. and a long discussion concerning the particular job ensued. After this conversation, BARR approved the job as submitted by LIPTON. LIPTON stated that this was the normal way the thing would have been done at that time.

LIPTON further stated that he had always felt that BARR was interested in the Communist philosophy because of things he had heard around Fort Monmouth. LIPTON stated, however, that he never discussed anything of this nature with the subject and does not know for a fact whether BARR was interested in the COMMUNIST PARTY.

The COMMUNIST PARTY has been designated by the Attorney General of the United States pursuant to Executive Order 10450.

Re your FD-227 forms dated 12-22-54 submitted requesting mail covers of Bernard Barr, brother-of-the subject, and Rebecca Barr, mother of the subject.

In view of the fact that Mrs. Barr is sickly and cannot read and write English, the probability exists the subject would not correspond with her. Previous investigation has shown Bernard Barr to be cooperative at least to the extent of permitting himself to be interviewed regarding his brother. In view of the above, your request for a mail cover on these two persons is denied. You should recontact Bernard Barr and inquire concerning any information he might have concerning the subject and determine if he will agree to notify your office of any future contacts made by the subject with his family. Periodical recontacts should be made with Bernard Barr to determine if the subject has been in contact with other members of the family.

ReBos FD227 to Bureau dated 4/27/54, Boslet to Bureau dated 12/2/53, and report of SA CARL J. EVENSEN dated 1/22/54 at Boston.

The Boston Division has maintained a mail cover on the Subject's sister, IRIS ~~BARR~~ GILBOARD, and her husband, HAROLD ~~GILBOARD~~, since August 10, 1950. To date no pertinent information has been received from this mail cover.

Subject's brother-in-law, HAROLD GILBOARD, has voluntarily appeared at the Boston Division on November 30, 1953, and January 14, 1954, and was contacted on July 15, 1954, at which times he has advised that he would cooperate in any way to help locate the Subject and that he would immediately notify this Office in the event he receives any information concerning the Subject's current whereabouts.

In view of the fact of the lack of productivity of instant mail cover and because Subject's brother-in-law, on whom the mail cover is placed, has volunteered to furnish any information coming to his attention concerning the whereabouts of the Subject, it is requested that consideration be given by the Bureau to discontinuing this mail cover.

Attached are 6 copies of the report of SA  
FREDERICK C. BAUCKHAM, dated 6/15/55.

In the report dated 1/25/55, by SA FREDERICK  
C. BAUCKHAM in the above captioned case a lead was set out  
to consider interviewing of RALPH KRICKER, for information  
he may have concerning the subject.

RALPH KRICKER, who resides on Shotwell Road,  
Woodstock, NY, is the subject of a Security Matter case in  
NY, (NY file 100-115864) (Bufile 100-412638). A review of  
this file reflects that KRICKER associates with known  
Communists in the Woodstock area.

[REDACTED] KRICKER attended a  
dinner at Chait's Boarding House in Accord, NY, as late as  
April 24, 1955, which was for the benefit of the CP and  
the "Daily Worker." His wife acted as Mistress of  
Ceremonies.

[REDACTED] a meeting was held [REDACTED]  
for the purpose of raising money for a new trial for  
MORTON SOBELL, convicted espionage agent, and at this  
meeting, RALPH KRICKER played a recording of Senator MC CARTHY  
questioning MANDELL.

[REDACTED] has reported seeing KRICKER  
at several affairs in the past which were connected with the  
CP.

In view of the above, it does not appear that  
any purpose would be served by attempting to interview KRICKER  
concerning JOEL BARR and the NYO, therefore, will not cover  
this lead.

NYlet 5/17/55, stated information re MILTON LIPTON  
would be reported. Report of SA JAMES A. HANLEY, Newark, NJ,  
dated 5/13/55, sets out the interview of LIPTON and therefore  
no further mention of LIPTON was deemed necessary in instant NYrep.

SUBJECT: JOEL BARR  
ESPIONAGE-R

Re SAC let 55-30, 4/12/55.

SUCCINCT RESUME OF CASE

Subject was born 1/1/16, Brooklyn, NY.

Subject left NY for Europe in January 1948 and his present whereabouts is unknown.

DAVID GREENGLASS, convicted Soviet espionage agent now in a Federal Penitentiary, has stated in interview on July 17, 1950 that JULIUS ROSENBERG, executed Soviet agent, told him, GREENGLASS, in May 1950, to leave the country and also told him that more important people than GREENGLASS had left the country already, such as JOEL BARR, who was doing work for the Russians overseas.

GREENGLASS also advised that JULIUS ROSENBERG told him that he had given money to JOEL BARR to assist BARR in making his trip to Europe in 1948. GREENGLASS had no knowledge as to the amount of money or when this money was given.

GREENGLASS also stated that JULIUS ROSENBERG, sometime around 1947, told him BARR was active in the espionage work.

[REDACTED] who has furnished reliable information in the past, but who has a questionable background, advised that he had been told by JULIUS ROSENBERG that JOEL BARR is a courier for the Russians and is in Europe and probably Russia.

Several interviews with subject's relatives have reflected they have no knowledge of subject's whereabouts.

RECOMMENDATION

It is recommended that the subject be retained on the SI.

ESP/SEC

Letter to Director, FBI  
NY 65-15392

The subject operated as an espionage agent for the Russians and was connected with the Julius Rosenberg espionage ring.

He is believed to be presently active in espionage or as a courier for the Russians in Europe, although his exact whereabouts is not presently known since he fled Paris in 1950 at the time when GREENGLASS and ROSENBERG were arrested.

The foregoing facts depict the subject as a dangerous individual who could be expected to commit acts inimical to the national defense and public safety of the US in time of emergency.

DETCOM TABBING

1. The subject is currently nottabbed for Detcom.
2. Subject has not been approved for Detcom under the new criteria set out in SAC let 55-12 of 2/10/55. The SI card has not been received from the Bureau bearing the red letter "Detcom" stamp.
3. The subject is not recommended for Detcom, inasmuch as BARR is out of the country.

NY 65-15392

The "National Guardian" on August 31, 1953, on page 5 announced the publication of a book entitled "The Atom Spy Myth". The announcement stated that Action Books, Room 2800, 165 Broadway, had announced for fall publication "The Atom Spy Myth-from Hiroshima to the ROSENBERGS", by WILLIAM A. RUEBEN. It was stated that this is the book in which RUEBEN, who wrote the original "Guardian" articles for the ROSENBERG case in 1951, "had been working on for two years". It described the book as an examination of all the "Atom Spy Cases", "in light of parallel Washington cold war moves". It was stated that "the Atom bomb spy hunt is the greatest hoax in history".

Regarding the "National Guardian", the 1949 report of the California Committee on Un-American Activities cited the "National Guardian" as a publication launched in New York in 1948, aiming at national circulation which they found to be from its inception notoriously Stalinist in its staff, writers, management, and content. (1949 report of the California Senate Fact Finding Committee on Un-American Activities, page 394.)

T-2, who has furnished reliable information in the past, advised on December 9, 1948, that he had been told by a Communist Party organizer that a group of "progressives" and Communists, at the suggestion of the New York State Committee of the Communist Party, decided to form a new book club to give wide circulation to the works of Communist and "progressive" writers, and the book club so formed was the Liberty Book Club.

A review of instant file reflects that all logical investigation to locate the subject has been conducted and the only remaining investigation is to maintain contact with the subject's relatives who appear to be cooperative.

You should conduct a thorough review of this file to make certain all investigative leads have been covered and that appropriate stops are still outstanding in order that the Bureau will be notified in the event the subject attempts to re-enter the United States. Following the completion of the above, you should report the results of the mail cover maintained on the subject's brother, Arthur Barr, during the Christmas season and then consider placing the instant case in a closed status.

NOTE: Barr was a member of the Julius Rosenberg espionage network who fled the United States in 1/48. He resided in Paris, France, until the arrest of David Greenglass in 6/50. The day of the Greenglass arrest, Barr disappeared from his residence in Paris, France, and his present whereabouts is unknown. All logical investigation in the U.S. and Europe has been conducted in an attempt to locate Barr. His name is carried in the Security Index and if this case is placed in a closed status, it will be reviewed annually as a part of the Security Index review.

SUBJECT: JOEL BARR  
ESPIONAGE - R~~Joel Barr~~ Summary

Subject born Brooklyn, New York, 1-1-16 and graduated College of the City of New York 1938 as an electrical engineer. He was a fellow classmate of Julius Rosenberg, executed Soviet agent, and Morton Sobell, convicted Soviet agent, and William Perl, member of the Rosenberg network. Barr was employed United States Signal Corps, Ft. Monmouth until 1942 when he became employed with Western Electric Corporation until 1946 when he became employed at Sperry Gyroscope Company. Barr left the United States 1-21-48 and resided in Holland, Finland and Paris, France. On 6-16-50 he disappeared from his Paris residence and his present whereabouts is unknown. (6-16-50 was the date of the arrest of David Greenglass, admitted Soviet agent.)

Barr resided at and paid rent for the apartment of Alfred Sarant at 65 Morton Street, New York City, which apartment has been identified as the conspiratorial headquarters for the Rosenberg espionage ring. Greenglass advised Rosenberg told him in 1950 that Barr was one of his espionage contacts in the United States and he left to carry on espionage work for the Soviets in Europe.

All logical leads have been covered. New York has been maintaining contact with one of Barr's brothers in New York City and has not been able to develop any information concerning his whereabouts. Barr is on the Security Index and his case will be reanalyzed on a semiannual basis. All stops will be maintained in order that the Bureau will be notified in the event of Barr's return to the United States.

All C references have been reviewed.

 SUBJECT: JOEL BARR

[REDACTED] 67d  
 Sperry Gyroscope Corp., Lake Success, New York, advised on 10/25/57 that at 12:05 P.M. this date he received a telephone call from BEN MANDELL, Research Director for the Senate Internal Security Subcommittee. MANDELL advised [REDACTED] that he wanted information concerning JOEL BARR, who was a former employee at Sperry and, in particular, he wished to ascertain if BARR while employed at Sperry had done any work on space platforms or rockets. MANDELL pointed out to [REDACTED] that DAVID GREENGLASS had advised that BARR had had access to such information. [REDACTED] advised MANDELL that he would have to make a check of his records to determine exactly what BARR'S status had been. [REDACTED] advised the NYO that BARR'S personnel folder at Sperry's indicated that he had been employed 10/28/46 and had been terminated 10/16/47. His job title was as project engineer and his employment had been terminated by discharge inasmuch as no clearance could be secured for BARR. [REDACTED] further advised that he intended to make additional inquiries among current employees at Sperry who might have knowledge of BARR'S exact duties during his employment. When such information had been secured, [REDACTED] said, he would furnish it to MANDELL. He would also advise the NYO of any information he developed. 67d

The report of SA THOMAS E. BRYANT made at Los Angeles 8/30/51 in captioned matter sets forth interview with JOHN MELVILLE, former fellow employee of BARR at Sperry. Rerep sets forth that, according to MELVILLE, BARR was employed at Sperry on "an advanced and highly confidential radar project."

No active investigation being undertaken this matter by NYO, however, any additional information furnished by [REDACTED] will be forwarded to Bureau. 67d

...in connection with what may have been told to Rosenberg either from a physicist or aerodynamic expert and worked with the National Advisory Commission for Aeronautics at the time, or an engineer who worked on the project at Sperry Gyroscopic Corporation. Rosenberg told Greenblatt that the latter was not at all reliable.

When Rosenberg, it should be noted, was Chief Inspector for the Signal Corps at Ft. S. Army, in this capacity he went to all plants manufacturing equipment for the Army and Navy, but never so possible to secure from the Signal Corps details.

100 questioned Crenshaw as to whether or not the explosive ring included any technical experts who could evaluate information on their part. Crenshaw said that he ran until he met at night with an individual on the East (name of person not given). The parties (offsets) promised to him to be in the East (near) from the pointed out. When he asked, "He might have been a prominent person because he kept his identity hidden," his face down and his face in the shadow, both repeatedly warned Crenshaw to keep his eye on the road and at one time he turned Crenshaw's face with his away from looking at him.

was anxious to see the agent, he was to walk on a certain side of the street and the agent was anxious to see Gold. The agent was to walk on another side of the street. At that time Gold was filled with emotion because of the Fuchs case and was anxious to get the word from the Russian. When Gold was on the little island under the elevated structure, a man came toward him. From the photographs which Gold saw in the newspapers later he believes that man was Rosenberg. In both cases it would seem that Rosenberg had been assigned to keep Gold under surveillance. Gold also described other items of espionage which he had not detailed previously. He said he gave to a Russian agent, whom he knew as Paul Smith the information regarding the manufacture of synthetic normal butanol alcohol, a solvent for lacquer in which the Navy was deeply interested. Gold says that Paul Smith was the man who established the espionage ring in which he operated. He was either a Dane or Czech, about 30 years of age, with a rather bald pate, light hair and eyes, and about 35 to 40 years of age. He had a wife, who was a neat dresser, had traveled widely, and spoke Danish and English. Gold knew him from October or November 1935 to July 1938 and met him about 12 or 13 times.

Gold also gave Smith information about absolute ethyl alcohol used to blend with motor fuel in order to extend such fuel. Gold's sources of information were the Pennsylvania Sugar Company. Gold also passed on information of the process for manufacturing ethyl chloride, an anesthetic which was obtained from the Pennsylvania Sugar Company. Gold also passed on information about other lacquer and varnish solvents, such as methyl acetate, ethyl acetate, amyl acetate, butyl acetate.

Gold believes that this information gave the Russians ideas and money which would have been required for their own experiments in producing these products. The information was given to the Russians in the form of a letter.

Gold said that the person who gave him the information was a highly skilled mathematician and a chemist. He was a Russian and was working in the country. Mr. Benjamin Mandel  
Research Director  
Internal Security Subcommittee  
United States Senate Building  
Washington, D. C.

Dear Mr. Mandel:

1. Reference is made to your letter of October 25, 1957, which forwarded your memorandum dated October 16, 1957, relative to interview with David Greenglass and Mary Gold on October 15, 1957 at Lewisburg Penitentiary, and to our telephone conversation of October 25, 1957.

2. Joel Barr was employed by Sperry Gyroscope Company on October 28, 1946 as a Project Engineer and was discharged on October 16, 1947. Barr was discharged on a Security Risk, because the Government advised on October 6, 1947 that he could not be granted a clearance for the handling of classified material.

3. We are unable to amplify or supplement any of the information set forth in your memorandum of October 16, 1957 as it applies to Joel Barr and this Company.

4. Barr was an average engineer. His work consisted of determining how well radar would detect and pick up certain missile shapes which was unclassified work. This Company has never been engaged in space platform work as such.

5. I would appreciate being kept advised of any further information you develop that is connected in any way with our Company.

Thanking you in advance, I am

Very truly yours,

SPERRY GYROSCOPE COMPANY
